DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Song (6435842).

Song teaches reciprocating compressor comprising: a reciprocating motor (4a, 4b) disposed in a casing, and configured to generate a driving force (col. 1 lines 63-67); a compression unit C configured to suck, compress, and discharge gas by the driving force of the reciprocating motor; a resonant spring unit (7A, 7B or 20a, 20b) configured to provide a reciprocating movement of the reciprocating motor with a resonant movement; and at least two spring supporting frames (2, 5a or 2, 13b) configured to support the resonant spring unit, wherein one of the spring supporting frames is inserted into another of the spring supporting frames. Please note that frames 13b and 5a are within frame 2.

Claims 2-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 2/29/08 have been fully considered but they are not persuasive. Applicant states that Song lacks the teaching of one supporting frames inserted into another of the supporting frames. Please note that the examiner has interpreted the reference of Song as containing 4 frames and some of the frames are surrounded or inserted into other frames as seen in the figures above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
